

MPUR Europe

Multiphase Pump User Roundtable - Paris, October 14, 2008

Now in its fourth year, MPUR-Europe provides a unique focus on multiphase pressure boosting projects of interest to European oil and gas producers. This includes topics in multiphase pumping, wet-gas compression and subsea processing. The goal is to foster interaction and the exchange of experiences in this rapidly evolving area. This year, the MPUR comes to Europe to provide a focus on European issues such as:

- *Multiphase Boosting in Europe, West Africa, the Mid-East and other key locations around the world*
- *Subsea Multiphase Pumping/Compression*
- *Wet-Gas Pumping/Compression*
- *Lessons Learned; from Installation to Operation*

The event features highly interactive workshop sessions and the opportunity to gain insight from those that have successfully applied this exciting new technology.

2008 Co-Sponsors:

ROSSCOR
Multiphase System Technology

Preliminary Agenda:

8:00	Registration, Tea & Coffee
8:30	Welcome & Introduction Dr. Stuart Scott - MPUR
8:40	Keynote Presentation <i>Bernard Quoix - Total</i>
9:15	Helicoaxial High-Boost Multiphase Pump JIP <i>Svein Håheim - Shell</i>
9:45	Pazflor, the Hybrid Pump was Born <i>Pierre-Jean Bibet - Total</i>
10:15	BREAK / Informal Discussions / Exhibits
10:45	New Frontiers for Multiphase Boosting <i>Dr. Stuart Scott - MPUR</i>
11:15	Workshop Sessions 1. Subsea Compression <i>Co-Chair: Hakon Grimstad - Framo</i> <i>Co-Chair: Klaus Tamke - MAN Turbo</i> <i>Co-Chair: Herman Artinian - Direct Drive Systems</i> 2. Multiphase Pump Support Systems <i>Chair: Svein Håheim - Shell</i> <i>Co-Chair: Thorsten Sieber - EagleBurgmann</i> 3. Caisson & Downhole ESP's <i>Chair: Dr. Stuart Scott - MPUR</i>
12:45	LUNCH / Informal Discussions/ Exhibits
13:45	Metal PCP Technology Applied To Extra Heavy Oil From R&D to Joslyn SAGD Application <i>Felix Ndinemenu - Total</i>
14:15	<i>Gulf of Mexico Topside Multiphase Pump Application</i> <i>Mike Willis - Century Exploration New Orleans, Inc.</i>
14:45	Workshop Sessions 4. Advances in Multiphase Technology <i>Chair: Pierre-Jean Bibet - Total</i> <i>Co-Chair: Axel Jäschke - Bornemann</i> 5. Boosting in Subsea Processing <i>Chair: Dr. Stuart Scott - MPUR</i> 6. Multiphase Wet-Gas Boosting in Unconventional Developments <i>Co-Chair: Klemens Fockenberg - Seepex</i> <i>Co-Chair: Sven Olson - Leistritz</i>
16:15	BREAK / Informal Discussions/ Exhibits
16:45	Total Congo, a Happy Operator of ESP with Poseidon Hydraulics <i>Felix Ndinemenu - Total</i>
17:15	Closing Remarks and Technology Survey
