

FRAC SCHOOL

Petroleum (etc)

You are invited you to attend our state-of-the-art, week-long course on hydraulic fracturing. This year's schools are taught in locations (Houston, Pittsburgh and Ridgedale). Best known for a balanced presentation of the theoretical and the practical, the course provides a unique learning experience.

For more information visit our web site:

fracschool.org

You should have an engineering or scientific background. The class is an introduction to hydraulic fracturing. This course ideal for reservoir, production and operations engineers serving on multidisciplinary asset teams.
